

BULK MATERIAL SPREADER AVAILABLE FOR USE IN ORLEANS COUNTY

Please Register with Jason Tankersley, Orleans County Conservation Agriculture Resource Program Specialist

(802) 487-9226 or jason.tankersley@orleanscountynrcd.org

-
- The 8-ton bulk material spreader is available to assist with the application of lime and other soil amendments.
 - This equipment is intended to support conservation crop rotation and farm viability by enabling timely application of soil amendments to maintain productive agricultural land.
-

**The Orleans County Conservation District has one Bulk Material Spreader for rent.
Rented on a first come first serve basis at a rate of \$7/ac.**

The spreader can be used for application of:

- Lime
 - Wood Ash
 - Chicken Litter
 - Other Similar Bulk Materials
-

- Suitable for applying amendments to improve field conditions to support crop production.
- Tractor requirements: approximately **100-120 HP for flat ground**, with **150+HP recommended for hills or soft field conditions**.
- This is an **8-ton capacity spreader**, designed for handling and distributing bulk materials.
- A **signed rental agreement is required** prior to equipment use.
- It is the responsibility of the renter to transport the spreader.
- It is the farmer's responsibility to properly operate and maintain the equipment, and to address any preventable damages and repairs.
- OCNRCD can also provide support in identifying and accessing grant resources related to crop rotation and other associated conservation practices.
